

COORDINATE REFERENCING NEWS - October 2016

NSHPN Updates

The NSHPN facilitates the migration of survey work in Nova Scotia to NAD83(CSRS)2010.0

Data Updates

Recent NSHPN enhancements include the following:

- 421 more NSCMs throughout Antigonish, Colchester, Cumberland, Halifax, Hants, Guysborough and Pictou counties
- urban densification has been performed in Antigonish, Amherst, Halifax, New Glasgow, Sydney and Truro
- the complete NSHPN data set is now available in .csv format by submitting a request to geoinfo@novascotia.ca

Access the NSHPN

The updated NSHPN can be accessed via the NSCRS Viewer.
